Docket No.

02-0265

Petition to Modify Certification of Service Authority of DES

Dynegy Energy Services, Inc. ("Applicant" or "DES"), hereby requests that the Illinois Commerce Commission ("Commission") modify its certificate of service authority to operate as an Alternative Retail Electric Supplier pursuant to Section 16-115 of the Public Utilities Act ("Act"). On November 1, 2001, the Commission granted certification under 83 Ill. Adm. Code 451 to DES to provide service throughout the State of Illinois (Docket 01-0633).

DES herein requests the Commission to modify its certification authorize DES to provide service in all geographic areas in the state with the exception of Illinois Power Company's ("IP") service area. This modification will better align the Dynegy retail affiliates in the Illinois market and provide a more clear separation of the Dynegy market participants in the Illinois Power service territory.

DES has recently filed its annual report and is in full compliance with 83 Ill. Adm. Code 451.

Wherefore, DES requests the Commission approved the requested modification to its ARES certificate.
